The Value of POCUS in Medical School Education

By Abigail Meckley and Michael Lowe

"Point-of-care ultrasound (POCUS) is a tool that arguably any practicing physician can use. However, not all are trained to use this medical jack-of-all-trades. Medical schools are catching up on incorporating ultrasound into their curriculum, leaving many students with minimal exposure to hands-on POCUS experience during their didactic and clinical years. Providing medical students with POCUS education is undoubtedly beneficial for the student physician as well as their future patients.

Here's why."
