

Healthcare Students Harness the Power of POCUS

“Ultrasound is performed by clinicians worldwide, and is an ideal adjunct to teaching anatomy and conducting physical examinations,” said Dr. Peter Steinmetz. “You need to show how your medical students will effectively learn the skills to use POCUS as a helpful clinical tool.”

The opportunity to learn POCUS before entering the medical field has become more accessible. Many medical students have eagerly taken advantage of the opportunity and found the experience to be highly beneficial.
